Happenings in and Around Bellevue

Will Christie has returned to Calgary.

Mr. and Mrs. McNeil left on Saturday for other parts.

Mr. Davidson, of Fernie, moved into Bellevue on Friday.

S. Maroski is expecting his wife to arrive from Austria this week.

Robert Connolly will spend Easter with his sister in Pincher Creek.

Mr. Gilmour, of Cowley, has opened Carney's livery barn for business.

The athletic society reorganized on Sunday night last and discussed plans for the coming season.

A grand ball and supper was given by the boys of Bellevue in the Socialist hall Tuesday night.

"Ted" Coupland represented the local footballers at the district football meeting at Coal Creek on Saturday.

Percy Andrews, scale inspector for the C.P.R., was in town on Sunday and officiated at the organ in the Methodist church.

A meeting of the "Bellevue Scrubs" football team is called for Wednesday night when the team will reorganize for the coming season.

Steve Humble will make an addition to his store immediately which will enable him to increase his stock of hardware and furniture.

Miss Muskhart will deliver an address in the Socialist hall on Saturday night on "Modern Slavery." The meeting is announced for 7.30.

Geo. Knowles has purchased lot 3 in block 2 of the townsite lying south of Humble's hardware store, where he will erect a new blacksmith shop.

The record scores on the local bowling alleys for the month ending April 15th were: Fred Chappell, 5 pins, score 55; Will Patterson, 10 pins, score 215.

Quite a number of Fernie voters went up from Bellevue to exercise their franchise on Thursday last. The result of the election was watched for with keen interest here.

The local gun club held their first shoot at the traps on Wednesday of this week. The club has now over twenty members and keen interest is being manifested in it.

A local branch of the Union bank was opened in Bellevue on Monday in Jack Murray's store. Mr. Ferguson is in charge. The bank will probably build in the near future.

The stock and business of J. J. Raynor has passed over to A. I. Blais of Frank. The store opened under the new management on Monday, April 1st. Walter Scott is in charge.

Rev. W. T. Young and Mr. McKay, of Frank, visited the camp on Monday, probably to guard the intellectual and moral welfare of the late Frankies who have gravitated eastward.

The services in the church next Sunday will be of a special Easter character. In the morning at eleven o'clock the pastor will preach on "Consider the Lilies," and in the evening at 7.30 on "The Resurrection Life." The sacrament will be administered at the morning service, and the music of both services will be in keeping with the Easter season.

Mr. Jim Cousins is moving his home up from Fernie and will occupy the house vacated by Mr. George Bateman.

Some one, evidently feeling the pinch of economic necessity, also the need for a pair of rubber boots, solved the latter problem by causing a catastrophe to befall the window of J. J. Walters store which enabled the "Some one" to appropriate unto himself the desired apparel for his pedal extremities in foul weather.

The Bellevue band will make their first open air appearance on the square on the afternoon of Sunday next, it being Easter Sunday. The playing will commence at 3.30, sharp and the following programme will be rendered: March, "Warpath," J. Bailey; selection, "Jerusalem," W. Rimmer; anthem, "Jerusalem," Lowell Mason; fantasia, "Manrico," H. Round; sacred march, "Morning Service," H. Round; selection, "England," J. Ord Hume; fantasia, "Challenge," H. Round; hymn, "Sandow," Purday; "God Save the King."

Coleman Notes

Rev. T. M. Murray goes to Cowley Saturday where he will deliver an illustrated lecture on missions.

The anniversary services in connection with the Institutional church will take place on Sunday next, at which Rev. Dr. Hay, of Cowley, will be the speaker.

Lume Shoulder is nearly always due to contraction of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

Toronto Glee Club will appear at the opera house here on Saturday, April 13. This troupe has a high reputation, and will be well received in Coleman.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

The anniversary supper and social will be held at the Institutional church on Monday night and promises to be a successful affair. A lengthy and interesting programme will be rendered.

Goleman Lodge No. 36, I.O.O.F., and Rebebek Lodge No. 7, will hold their annual anniversary ball at the Eagle hall on Friday, April 12th. Three or four hundred invitations are sent out and the affair promises to be enjoyable.

R. L. Norman, of the Pincher Creek "Echo," was in town last week in connection with the revival of the newspaper here. We learn that the new paper will be named "The Bulletin" and will be editorially supervised from Pincher Creek.

Attraction Extraordinary

Capt. W. A. Beebe has been successful in securing for one night only the famous Toronto Glee Club by the Hon. Rufus MacDonald, the greatest basso-cantante on the continent. Mr. MacDonald is known in the East where the mere announcement of his name means a crowded house in the office of the United States and Canada. In securing this attraction Capt. Beebe's object was not a money making scheme but to give the people of the town a chance of hearing something out of the ordinary without going elsewhere. The Glee Club's appearance in Winnipeg, Saskatoon, Brandon, Edmonton and Calgary caused the greatest furore in musical circles and crowded houses greeted them in every city. It is to be hoped the people of Blainmore will give them a packed house, as arrangements have been made by which no seat will be more than 15 cents.

Camp For Teachers

A six week's course in Physical and Military Training for Teachers will be given in Calgary this year beginning during the first week of July.

In order that the teachers will have the opportunity of observing cadet corps in training the cadets of the district will also go into camp for a few days during the first week of the teachers' course.

The teachers will receive pay at the rate of \$1.00 per day and in addition will receive rations at the regular rate and quantity as is supplied to the troops under canvas. Formerly a subsistence allowance of \$1.00 per day was given, but this year the rations will be allowed in lieu of the monetary allowance. The usual blankets will be provided but it will be optional with teachers to provide coats for themselves.

As the number is strictly limited to fifty teachers, those desirous of taking advantage of the course should forward their applications immediately, either to Col. E. A. Cruikshank, district officer commanding at Calgary, or to D. S. MacKenzie, deputy minister of education, Edmonton.

License Vendors

of Small Wares

An amendment to the Children's Protection Act provides for the licensing of all vendors of newspapers, small wares and of bootblacks. The amendment, as set forth, states that no municipality shall grant a license to any child whose age does not exceed twelve years, nor to any female child. The municipality is not allowed to grant a license to any child under the age of fourteen years unless such child shall present authority in writing from his parent or guardian.

Metal badges should be issued bearing the number of the license issued, and it becomes the duty of police officers of the city, or in cases where a special children's officer is employed, of that particular officer, to see that the new vendors wear their badge upon a conspicuous place on their clothing.

Provision is made whereby justices of the peace or magistrates may impose a fine, not exceeding \$5.00 and costs, for any one who violates the conditions of the Act.

This is a piece of much needed legislation, and the effect in Alberta should be most marked to the course of the next six months. The city of Ottawa has a by-law which was introduced in January 1910. The effect of the by-law is most satisfactory according to the Chief of Police in that City. Cleveland, Ohio, has licensed its news vendors for the last fifteen years, and opinions, which were solicited from all over the Dominion, brings the unanimous verdict that an Act requiring municipalities to pass such a by-law would be for the best interests of the children all round, as it would have a tendency to prevent truancy, and it would require good behavior on the part of the news vendors, bootblacks, etc., and the fear of having the badge cancelled, as well as the fine, would bring them to a higher point than is possible under the loose system that is usually in effect in the cities in the West.

The Province of Manitoba issues all badges from the provincial office of the superintendent of neglected children, the badges merely being sent to the police of the various municipalities to be distributed, and a record in turn being sent to the office of the superintendent.

Baseball Club Organized

A meeting of those interested in the formation of a baseball club was held in the Blairmore council chamber Wednesday night, attended by a large number. The following officers were elected for the ensuing term: Thos. Frayer, honorary president; J. H. Farmer, honorary vice-president; H. E. Lyon, president; C. J. Fegg, vice-president; Clarence Lewis, secretary-treasurer; R. M. Brisco, manager; C. Dellis, R. M. Brisco, G. A. Passmore, H. Bennett and C. Lewis, were appointed an executive committee.

The club purposes communicating with other clubs in the district between Fernie and Pincher or Macleod, with a view to forming a league.

Notes in Brief

Macleod is to have a new opera house of great dimensions. Work on the foundation commenced last week, and it is expected the new structure will be completed by midsummer.

A prisoner named Bernard Fletcher, being brought from Calgary to Vancouver, on a serious charge, leaped from the train at Mission Junction and made successful escape. Police are still searching for him.

The Macleod "Gratie" has ceased publication temporarily, as the publisher is compelled to devote all time to jobbing. The "Gratie" was started as a special publicity medium for Macleod several months ago.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from real sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

The eastern slope of the Rocky Mountains is rich in minerals. The geological survey of Canada estimates that 22,000,000 tons of coal may be mined from that region. Anthracite coal is now being mined near Banff, on the eastern slope.

On Saturday night, the 20th, at the Blairmore opera house, boxing enthusiasts will have the pleasure of witnessing one of the finest exhibitions of boxing throughout this section of Alberta for some time. The contesting parties, Dominick Marshall and "Young" Morris are clever "bugs" and interest is being more and more centered in them.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep bowels regular and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

Charged with the murder of Geo. E. Willmot, of the R. N. W. M. P., at Frank, four years ago, on April 22, 1908, the trial of Fritz Eberts, alias Charles Stefan and Mathias Jansek, commenced on Tuesday at the criminal assizes at Macleod, presided over by Judge Simmons. F. J. Nolan, K. C. of Calgary, assisted Wm. Campbell, of Macleod, who is acting as crown prosecutor, and Colin Macleod appears for the defence. It is expected the trial will last nearly a week, as there is a large number of witnesses to be called. At the time of the murder great interest was displayed in the case and the result is eagerly awaited.

Independent. This centralizes the work, but does not relieve the municipality of any responsibility in enforcing the act.

A QUELLE CHINESE TOWN

How Soldiers at the Gates of Kashing

A short time ago our Pen Pu arrived every man's queue cut off. Many at once did so, but the business men were opposed. About 1,000 were present. The Pu himself with his officers appeared before the people and then gave an account of the history of the Kashing movement in Kashing. One of the most interesting features of the occasion was the preparation of the volunteers of a number of goodly presents from rice in quantity to dress and other delicacies of all sorts. This for their faithfulness to the cause and a mark of the respect and sympathy of the people who were in and around Kashing.

But all the above methods failed to secure the shopman's queues and also those of many other people. So finally the magistrates wrote a proclamation that every man not having his queue cut off by the time set would be compelled to cut the hair of the Manchurian aristocracy and relegating it to the waste basket.

So the second soldiers were stationed at the gate recently and many were the queues sacrificed. Many were the heads of the goodly dignitaries, in their estimation, was thus lost forever. The writer passed along the street recently and could not see a single queue. So the Pu has proved his words.

There is a wild enthusiasm for foreign hats, overcoats, cloth and everything of this nature and the good tailor might make a good thing of it here.

CRIPPLED BY RHEUMATISM

At University Street, Montreal.

"Just a word of praise for the Pills. About fifteen months ago I could not walk across my room, suffering severely with Rheumatism. I took Glin Pills and became quite well."

Samuel Longmore.

Write us for free sample of Glin Pills to try. Then get the regular size boxes at your dealer's or direct from us—50c a box, 2 for \$2.50. Money refunded if Glin Pills fail to cure. National Drug & Chemical Co. of Canada Limited, Dept. M. Toronto.

Why He Asked

They were at their wedding hour, and imagined that the pretty girl given them related to their new condition of service.

Having stopped off at a way station, the bridegroom was approached by the station agent, who asked:

"Are you going to take the next train?"

"It's none of your business," retorted the bridegroom as he guided the bride up the platform, where they continued with each other over the importance of some of the pills.

Onward came the train, its vapor curling from afar. It was the last to their destination, and the day of press. Nearer and nearer it came at last—nearer than in a moment it whizzed past and was gone.

"Why in thunder didn't that train stop?" yelled the bridegroom.

"Con you said it was none of my business, I have to signal if that train's slow, before it can stop."

Anniversary of the Handkerchief

A curious anniversary which fell on the second of January has passed unobserved. It is the anniversary of the introduction of the pocket-handkerchief in the form we know it.

Early times and well up to the period of the French Revolution the handkerchief was of various shapes, each country having its own style.

One day at the Trianon Marie Antoinette remarked that it would be an improvement if handkerchiefs were made square. Louis XVI adopted the suggestion and on Jan. 2, 1785, issued the following decree: "The length of handkerchiefs manufactured in this kingdom shall henceforth be equal to the breadth." The revolutionists distributed everything that savored of royalty, yet they did not interfere with this decree.

Not for Hers.

Mrs. Dart—My husband is just begging me to take that trip around the world, but I can't.

Mrs. Updette—Why not?

Mrs. Dart—I always get dizzy when I travel in a circle.

Dr. George F. Knur, the gem expert, has been informed that the Emperor of Japan had conferred on him the decoration of the Order of the Rising Sun, officers' class, for work in mineralogy, jade and assistance to the Japanese mining industry.

Father (to his daughter's suitor):—I have said too much for you. I am ruined. I have lost everything.

Suitor—Console yourself, dear sir, with the thought that you are now in no danger of losing your daughter.

RODD'S KIDNEY PILLS

FOR RHEUMATISM, BRUISES, DIARRHOEA, AND ALL AFFECTIONS OF THE KIDNEY.

23 THE PHARMACY

W. N. U. No. 55

Strikes During January 1912

According to the record maintained in the Department of Labor January was a favorable month from the standpoint of industrial unrest. There were less disputes in existence but some of them were of serious consequence. About 1,100 employees and twenty nine strikes were recorded in this month. The loss in time was reckoned at about 15,000 working days; this being less than half the working days lost in the preceding month. The most important disputes was a lockout of plasterers at Winnipeg, Man. Seven of the nine disputes had been settled, leaving only two in existence at the end of the month, namely, a strike of pulpmill hands at St. George, N. B., and the lockout of plasterers at Winnipeg, Man. above mentioned. The latter, however, has since terminated.

Honesty itself

Application for employment was recently made to a St. Louisville business man by a young chap from the mountain region of the state. The man was a stranger and was unimpressed by the stranger's appearance. He was offered determined to hold the stranger in his presence until he could personally look into the young man's antecedents, which he could do without any further delay. The state where the applicant hailed, it was not long before the opportunity was afforded. The young man sought out the sheriff of the young man's home county and asked:

"Shore I know him."

"What kind of a man is he?"

"He is honest."

"Honest? Shore. Why, he's been arrested three times for stealin' and acquitted each time."

G.T.P. Luxurious Tourist Cars

The first of five new tourist cars supplied for the approval of the Grand Trunk Pacific Railway by the Canadian Car and Foundry Co. was on exhibition recently at the Bonaventure Station, Montreal. As evidenced by experts to be not only one of the finest of its type ever turned out, but to be in many respects the equal of a standard Pullman car. Spacious in its floor covering of cool green paint, the car is as comfortable as the outside as it is from within, where the finish throughout is of mahogany. At the rear is a smoking room and lavatory equipped with niches and wash stands, then comes the kitchen with Korr's "legal" range burning coal. The main body of the car has a seating and sleeping capacity of fifty-five persons. In front is a linen cupboard and the ladies' lavatory. The upholstery is of "Regent" or imitation leather throughout and a narrow strip of aisle carpet. The light is supplied by the "Edison" system. The heat is by the heat and the heat by the heat. The length of the car over all is 40 feet. The width is 8 feet. The height is 10 feet. The weight is 10 tons. The cost is \$10,000.

LA GRIPPE'S VICTIMS

Left Weak, Miserable and Prey to Disease in Many Forms.

One of the most treacherous diseases afflicting the people is the grippe, or influenza. It almost invariably ends with a complication of trouble. It tortures the victim with alternate fever and chills, headaches and backaches. It leaves him on easy prey to pneumonia, bronchitis, and even consumption. Indeed the deadly after-effects of La Grippe may leave the victim a chronic invalid. You can avoid La Grippe entirely by keeping the blood pure and clean with the use of Dr. Williams' Pink Pills. If you have not done this and the disease attacks you, you can have its deadly after-effects through the use of this name great blood-building, nerve-tonic medicine. Here is proof of the wonderful power of Dr. Williams' Pink Pills on this trouble.

Mr. Emory L. Larrin, St. Jerome, Minn., writes: "I was seized with a severe attack of La Grippe. I was obliged to stop work for a week and bed for several weeks, and while I appeared to get over the first stages of the trouble I did not recover my usual health. I suffered from headaches, loss of appetite and extreme weakness. I did not sleep at all at nights, and would arise in the morning feeling tired and worn out. This continued for about two months during which time I was taking treatment, but apparently without result. Then I was advised to try Dr. Williams' Pink Pills, and I got a half dozen boxes. By the time I had taken three boxes there was a decided improvement, and actually before I had completed the sixth box I was enjoying my old-time health. I was strong as ever, could sleep well and eat well, and no longer suffered from lassitude and headaches. I have proved the value of Dr. Williams' Pink Pills for the pernicious after-effects of La Grippe, and can therefore recommend them to other sufferers."

Dr. Williams' Pink Pills cure by going to the root of the trouble in the blood, which they enrich, and make red and pure. These pills cure the trouble due to bad blood, and if you are ailing you should start to cure yourself today by taking this great medicine. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockton, Ont.

Official figures show that New Zealand alone nearly 25,000 sheep.

Sore Throat is no trifling ailment. It may carry disease germs to any part of the body through the food you eat. When you feel sore throat coming on, use Hamlin's Wizard of Life.

"Am I required to exchange wedding gifts in the department from my wife?"

"Not at all," said the shop-walker.

"Thank you, I would like to exchange a vase-bowl for a fruit-plate."

"Speaking of exchange, did you send half a crown for those advertised instructions on 'What to do at table'?"

"Yes."

"And what did you get?"

"A slip with one word printed on it: 'Eat!'"

SKIN SUFFERERS

Do you realize that to go through life tortured and disfigured by itching, burning, scaly and crusted eczemas, or other skin and scalp humors is unnecessary? For more than a generation, warm baths with

Cuticura Soap

And gentle applications of Cuticura Ointment have proved successful in the most distressing cases, of infants, children and adults, when all else had failed.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal supply of Cuticura Soap and Ointment will be sent free of charge to all who will send for it to the Cuticura Soap and Ointment Co., P.O. Box 103, Portland, Me., U. S. A.

Turning the Tables

"O, George, dear," she whispered, when he slipped the engagement ring on her tapering finger, "how sweet of you to remember just the sort of stone I prefer. None of the others were so thoughtful." George was staggered when he saw her. "George came back with: 'Not at all, dear, you overstate me; this is the one I've always used' and she was incoherently enough to cry about it, says the 'Court Journal'."

LA GRIPPE'S VICTIMS

Left Weak, Miserable and Prey to Disease in Many Forms.

OPENING OF SIBERIA

Russia Planning to Spend Half a Billion Dollars on Railroads

It is now being planned to be taken for granted that once Mongolia, with its 1,000,000 square miles of territory and its 3,000,000 of people, is to be added to the Russian sphere of influence. Ever since the war with Japan, Russia has been devoting her energies to the expansion of Siberia. This vast territory stretching from the Ural Mountains to the Pacific Ocean, was once looked on as the dreary land of the exile. Today it is the promised land of the emigrant. There is room for many millions.

Siberia, with an area of 4,517,087 square miles, has at present a population of only 8,250,100. There are vast stretches of rich, black earth awaiting the farmer. Coal, iron, silver and gold are ready for the pioneer. Huge forests have in readiness great wood-cuts.

Some day Siberia must play a great part in the production of the world's food. At present the cultivated part is a mere patch on its huge area, yet it produces 170,000,000 bushels of cereals a year, a good being equal to 36 pounds. Its immense coal deposits are being mined, and the same is the case with its timber. In the Amur and Maritime Provinces there are 600,000,000 acres of forest land.

The railroad is naturally what is looked for for the development of the great country. The first great achievement in this direction was the construction of the Siberian Railroad. This has cost more than \$140,000,000, and stretches from Moscow to Vladivostok, 5,625 miles.

The railroad is naturally what is looked for for the development of the great country. The first great achievement in this direction was the construction of the Siberian Railroad. This has cost more than \$140,000,000, and stretches from Moscow to Vladivostok, 5,625 miles.

Other Russian schemes contemplate the opening up of Siberia. The Trans-Siberian Railroad, from Orenburg to Semipalatinsk and Barnaul to the railway at Tsingtau, at a cost of \$10,000,000, will link up of St. Petersburg by a direct line to the Siberian railroads.

Another scheme, proposed by Moscow, at a cost of \$2,000,000; the Amur line connecting the Siberian Railroad with the eastern coast round the north of Manchuria, making it possible to travel from east to west in the Russian territory, at a cost of \$31,000,000, and finally a branch line from east of Lake Balkhash to Kailash through the Great Desert in Mongolia, through Ural, and eventually on to Peking, at a cost of \$15,000,000. This gives a total in round figures, of \$95,000,000, which Russia is planning to spend on the opening up of her eastern Empire.

Other Russian schemes contemplate the opening up of Siberia. The Trans-Siberian Railroad, from Orenburg to Semipalatinsk and Barnaul to the railway at Tsingtau, at a cost of \$10,000,000, will link up of St. Petersburg by a direct line to the Siberian railroads.

Another scheme, proposed by Moscow, at a cost of \$2,000,000; the Amur line connecting the Siberian Railroad with the eastern coast round the north of Manchuria, making it possible to travel from east to west in the Russian territory, at a cost of \$31,000,000, and finally a branch line from east of Lake Balkhash to Kailash through the Great Desert in Mongolia, through Ural, and eventually on to Peking, at a cost of \$15,000,000. Na-Dru-Co Headache Wafers
Certainly do make short work of headaches. 25¢ per box.

In Wages or Profit

health, sooner or later, show its value. No man can expect to go very far or very fast toward success—no woman either—who suffers from the headaches, the sour stomach and poor digestion, the unpleasant breath and the good-for-nothing feelings which result from constipation and biliousness? But just learn of yourself what a difference will be made by a few doses of

BEECHAM'S PILLS

Tested through three generations—favorably known the world over this perfect vegetable and always efficient family remedy is universally accepted as the best preventive or corrective of disorders of the organs of digestion. Beecham's Pills regulate the bowels, stir the liver to natural activity—enable you to get all the nourishment and blood-making qualities from your food. As sure as you try them you will know that—in your looks and in your increased vigor—Beecham's Pills

Pay Big Dividends

The directions with every box are very valuable—especially to women. Sold everywhere, in boxes, 25¢.

Make Farm More Attractive

We must make the farm more attractive—the home building and the farm building. We must make those two great features of our national life more attractive so that they shall not only hold the young men and women who are being reared on the farm, but also draw from the cities large numbers of young men and women who are hardly making a decent living. We must send back to the farm men and women who will aid in the great work of producing food for the world.

Trembling female (to sixteen-stone policeman)—"Say, bobby, would you mind coming to my house and speaking to my husband. I do not want to take him. I just want you to frighten him."

"My good woman," was the reply, "you think I was taken on the force to be a scarecrow?"

HAPPY THO' MARRIED?

There are unhappy married lives, but there are no unhappy marriages. The feelings of nervousness, the belated mind, the ill-temper, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by regulating and correcting the local disorders which are generally responsible for the above distressing symptoms.

McPHERSON SHOES

Look better, fit better, wear longer and give better satisfaction than other makes. They are the result of 60 years' experience in building high grade shoes. Dealers everywhere in Canada. The JOHN McPHERSON CO., Limited, Hamilton, Ont.

None of the Symptoms "Doctor," said the sick man, "I'm afraid my nerves are in a bad condition." "Oh, no," replied the physician, "that's not in the matter with you. The fact that you have sent for me after ignoring the statements I've been sending you regularly during the past year and a half, indicates that your nerves are all right."

Actor—What, back so soon? Didn't the play take?
Actress—Yes, the play took; the manager took the receipts, the balls took the scenery, the orchestra took the trunks, and the author took to drink.

Browne—Did you ever see a man who really wanted the earth?
Towne—Oh, yes.
Browne—Who was he?
Towne—A first class passenger on an ocean liner.

College Humor
A real joke was sprung by a student at a university last week. This student suffers from the stigma of obesity; it appears that even professors do not love a fat man. After a particularly vicious recitation, the professor said: "Alas, Mr. Blank, you are better fed than taught." "That's right professor," smiled the youth, "and I'm sliding heavily, you teach me—I feed myself."

Photographically to measure and record the vibrations of a machine or building in the purpose of simple apparatus invented in England.

NERVES

Young and old have them. Some abuse them. They get tired, starved. **SYMPTOMS:—Loss of sleep and appetite, indigestion, irritability, eventually wrecked constitution.**

Alcoholic remedies stimulate only.

Scott's Emulsion soothes and nourishes, feeds the nerves. A natural nerve-food, containing the salts of Hypophosphites, Iodine and Glycerine.

NO ALCOHOL.
ALL DRUGGISTS

THE TALE OF THE SARDINE

Goos Through Forty-two Processes Before it Reaches the First Sails

Most of us are familiar with the silvery little sardines as they come to the table, nestled in their bed of olive oil, and it is interesting to follow the various processes through which they pass before they reach our homes. Amidst the magnificent scenery of the Norwegian coast, in the ice-cold waters of the picturesque fjords, are the feeding beds of the sardine. During the sunny summer days, from July to September, huge shoals of them crowd in from the open sea to these familiar haunts, which seem to breathe an air of peace and security. Alas! However, the fate awaiting them proves to be quite the reverse. The fishermen know so well that the sardines are coming, and keep a sharp watch for the silvery shoals and rippling surface of the water which indicates the approach of the little fishes in their millions. From far away Stavanger come these fishermen, racing over the water in motor-boats. With wonderful quickness and precision, immense numbers of the fish are surrounded by strong nets, and their doom is sealed. Shoveled out of the nets, they are drawn closer and closer, the heaving, glittering mass becomes more compact, and in a comparatively short space of time the ice-boxes brought for the purpose are filled with fish and hurried away to town.

At Stavanger—originally a small fishing village, but now the centre of the Norwegian canning industry—all is bustle and excitement on the arrival of the little lanterns. After waiting for twenty minutes or so in strong brine, the fish are taken to the sorting rooms to be graded according to size and prepared for the curing-chambers. Hundreds of comely Norwegian girls, in their neat, yet picturesque garb, bright and fresh-looking in their snow-white caps and aprons, dutifully thrust the fish of low wires, which when full are placed across wooden frames and hurried away to the curing-rooms. In the rooms where the fish are dried and cured small fires of oak-bark are kept burning continuously, throwing off a rich, fragrant odor, which permeates every corner of the chamber. The trays are hung on frames in every part of the room, and in the space of about two weeks the brilliant glitter of the silver fish is changed to a dull bronze as they are cured by the atmosphere of the room. As soon as the curing is completed they are hurried off to another roomful of busy girls on the canning floors.

Here heads, tails and fins are removed in the twinkling of an eye, and the little fish are packed carefully and neatly in tin placed ready to receive them. Each tin, as soon as it contains sufficient fish, is filled up with pure olive oil, the purest of fourteen grades. Then the top is placed in position ready to be sealed. The process for fixing is termed, in the time of the curing, the fish are taken to the machine-rooms, where ingenious machinery with wonderful precision and rapidity turns out the finished tin. The sardine is then packed in the fish are cooked. They are loaded into large, round metal trays, and then into tin bolters, which are then closed and treated with high pressure steam for half an hour. At the end of this period they are moved to the cooling-room to be cleaned and examined, and finally this being rejected.

An indication of the marvelous amount of detail which has to be considered in order to maintain perfection, it may be mentioned that, from the time of landing to the final packing for export, the sardine passes through no less than forty-two processes. On the freshness of the fish and the carefulness of the curing depends the flavor and quality of the finished product. Moreover, it is of great importance that the sardines should be caught only during the proper season.

The Secret of Power

Take from a man every gift but sincerity; let him be blind and deaf and dumb, let him stammer in his speech, lack education and good manners; handicap him as you please, but command respect and attention. His work will endure. The world which is always looking for the real thing, will gladly overlook all infirmities. In every relation of life sincerity is the secret of power. The Calabrian who does not trust himself to believe in the merit of his goods will generally be a failure. The business man who asks about to fool other people must end as he has, in fact, begun, by making a fool of himself. The clergyman who preaches anything that his soul does not approve need look no further to explain empty pews. There is no virtue that more men believe in and fewer men practice.

"Tourist"—What interested me most in my Egyptian travels was the mummies.
Londoner—"Wonderful!"
Tourist—"Haher. It's a lost art. They could never make a woman dry up like that now. If anyone thinks so, let him start on a suffragette."

"Every husband ought to make his bride a regular allowance from the start," said Senator Dewey at a wedding reception in New York. "This is the way to do it," he continued, "because from the start every bride finds that she must constantly make allowances for her husband."

Some idea of the terrific force with which a bird passes through the air may be gained from the fact that a common carrier flew right through a piece of plate glass a quarter of an inch thick.

It is estimated by a high-school professor that 15,000,000 feet of lumber is wasted each year in discarding the unused stubs of lead pencils. We wish he would now figure out how much lumber is wasted in throwing away match ends and tooth picks, and also how much time is wasted by professors in useless estimates!

"On the one hand," said the teacher, pointing a long finger to the map on the class-room wall, "we have the far-reaching country of Russia. On the other hand—what do we see on the other hand, Tommy?" "Wars!" said Tommy, hopeless with fright.

Insults Would Cause

"The tip is an insult," says the Chicago Record-Herald, "insulting the waiter that is what keeps travelling men poor."

A Purely Vegetable Pill.—The chief ingredients of Farmer's Vegetable Pills are mandarin and dandelion, active and purgative, but perfectly harmless in their action. They cleanse and purify and have a most healthful effect upon the secretions of the digestive organs. The dyspeptic and all who suffer from liver and kidney ailments will find in these pills the most effective medicine in concentrated form that has yet been offered to the suffering.

"And what happened in the interim?" a solicitor asked a witness in a public house case.
"I don't know, sir," was the reply. "I didn't go into the interim. I stayed all the time in the smoking room."

Minard's Liniment Relieves Neuralgia.

"Twenty years ago, Blank was a great man," commented one man to another. "Then he caught sight of himself in a mirror, and he liked what he saw so well that he has stood still contemplating himself ever since. To be so easily pleased and too soon in one insidious fog of largest success."

HOW'S THIS?

We offer One Hundred Dollars Reward for the name of a Canadian who can cure by Hall's Catarrh Cure. We, the undersigned, have known P. J. Minard for the last 15 years and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by him. Wm. J. Walker, Kingston & Marine, Ont. Hall's Catarrh Cure is taken internally, cleanses directly the system, conditionally cures all Catarrhs, is sold by all Druggists, and is the Family Pill for Constipation.

It has been estimated that the average emigration from Great Britain is eight hundred and eighty people a day.

"Are you first in anything at school, Charlie?"
"First out of the building when the bell rings."

Regarded as one of the most potent compounds ever introduced, which will combat all summer complaints and inflammation of the bowels, Dr. J. D. Kellogg's Dysentery Cordial has won for itself a reputation that no other cordial for the purpose can aspire to. For young or old suffering from these complaints it is the best medicine that can be procured.

Think of That

"Why is it, doctor," groaned the victim, "that a tooth has to have a nerve?"
"My dear sir," soothingly answered the man with the stethoscope, "it wouldn't be a dental college in all this broad land, if it wasn't for the nerve in a few teeth."

The Canadian Express Company is extending its services on the main line of the Grand Trunk Pacific Railway to the point in the west of Edmonton. Offices will be established at Hilda and Wabamun.

This Food-Tonic Quickly Restores Strength

After a serious illness, ordinary food should be accompanied by a strengthening tonic. For this purpose

NA-DRU-CO Tasteless Cod Liver Oil Compound

Is recommended very highly. In its preparation the diagnostic flavor of the natural Cod Liver Oil is entirely removed, while its full nourishing and tissue-building qualities are retained. Then we add Hypophosphites to build up the nerves, Extract of Wild Cherry for the Lungs and Bronchial Tubes, and Extract of Malt in food fluids, which aids in the assimilation of other foods.

For every ailment there's a NA-DRU-CO REMEDY BEARING THIS MARK. SEE THAT YOU GET IT.

National Drug and Chemical Co. of Canada, Limited.

J. H. FARMER

A RARE OPPORTUNITY FOR LIVE INVESTORS

Lake City

In the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the International line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous floods, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntsman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold quartz, coal, iron and pulp wood.

Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yaws will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

Experienced mothers say Zam-Buk is best for children's injuries and skin troubles, because:

- It is herbal—no poisonous mineral coloring.
- It is antiseptic—prevents cuts and burns taking the wrong way.
- It is soothing—ends pain quickly.
- It heals every time.
- Just as good for grown-ups.
- Sold at all stores and druggists.**

The Prodigal's Sin
A young New Haven man, returning home from a holiday in Colorado told his father about buying a silver mine for \$5,000. "I knew they'd rove you in!" exclaimed the father. "So you were, as enough to buy a humbug mine."
"Yes, but I didn't lose anything," I formed a company and sold half the stock to a Connecticut man for \$7,000."
"You didn't?" gasped the old man, as he turned white. "I'll bet I'm the one who bought it."
"I know you are," coolly observed the young man, as he crossed his legs and tried to appear very much at home.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of coolness. There is nothing like it as a liniment for its curative properties are great. A trial of it will establish faith in it.

"Before we were married," sighs the fond wife, "you used to call me up by long distance telephone just to hear my voice." "Well," retorts the rebellious husband, "nowadays you don't let me get far enough from you to use the long distance."

English engineers have succeeded in building a paper-making machine that will turn out 450 feet of newspaper 17 1/2 inches wide, a minute.

THE WORLD'S WORK DEPENDS ON THE WORLD'S DIGESTION

From the captain of industry to the hot carrier from mill to the street, the woman with the scurrying brush—the accomplishments of every one of us depend absolutely on the health of our stomachs. Backed by a good digestion, a man can give the best that is in him. When his stomach fails, he becomes a weakling.
To this loss of power no one need attribute. Right habits of eating, drinking, sleeping and exercise, aided by Dr. Dore's Dyspepsia Tablets, will restore and maintain the full efficiency of the human mind and body.
Dr. Dore's Dyspepsia Tablets contain the active principles needed for the digestion of every kind of food. They go to the assistance of the weakened stomach, and enable the sufferer, right from the start, to assimilate and get the benefit of the food eaten. With this assistance, the digestive organs regain their tone, and soon the use of the tablets is no longer necessary.
If your stomach is not working properly, try Dr. Dore's Dyspepsia Tablets, sold at your druggist's. National Drug and Chemical Co., of Canada, Limited, Montreal.

W. N. U. No. 988

Rotation of Crops

"The rotation of crops is one of the three essentials to any agriculture worthy of the name. Our low average yields is due to the antiquated system all too prevalent of raising the same crop indefinitely on the same land until it has been worn out or so reduced until the crop is in danger of poverty. There is no exaggeration in the fact that the rotation of crops could be made two-fold what it is by the statement that our farm production the mere application of more careful methods without any extensive cultivation whatever."—James J. Hill.

PILES CURED IN 4 TO 10 DAYS.
Your druggist will refund money if PAIN-RELEVER fails to cure any case of hemorrhoids, internal or external. Price is 4 to 10 days.

A SAFE MEDICINE FOR LITTLE ONES

Baby's Own Tablets are a safe medicine for little ones—the mother may feel sure of that. They are sold under an absolute guarantee of a government analyst not to contain narcotics or other harmful drugs. They cannot possibly do harm—always good. Thousands of mothers who have used them can testify for this and once a mother has used them for her little ones she always keeps them in the house. The Tablets quickly relieve and cure all the minor ills of babyhood and childhood. They sweeten the stomach, regulate the bowels, expel worms, break up colds and make baby healthy, happy and fat. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In addition to equipping her Red Cross corps with ordinary motor cars to enable surgeons to respond quickly to calls for aid, Italy will have motor ambulances for clearing battlefields of wounded men.

A Real Asthma Relief. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative. Indeed, when judged by the cures effected, it is a most remarkable and permanent benefit when you try this remedy and you will not have cause for regret. It has cured many permanent relief in many cases where other so-called remedies have utterly failed.

The First Consideration
SHE—This place doesn't agree with me.
HE—Why don't you leave?
SHE—Why, Fido has gained a pound since we came here.

Minard's Liniment Cures Burns, Etc.

The son of the English Prime Minister is not following his father's footsteps in the army, but is studying agriculture by making a study of Argentina and its people. The present Conservative leader had a business training for his political position.

Shiloh's Cure
quickly stops coughs, cures colds, breaks the throat and lungs. 25 cents.

Making a Backbone

If it is true, as we are convinced it is, that "agriculture is the backbone of nations" then it is time that the brainiest and most energetic young men of all nations should be sent to agricultural colleges to study farm science and farm management.

How Chickens Avoid Cold Feet
Humans are not the only ones who are afraid of the cold. Chickens, according to Farmer William Brennan, of West Pittsburg, on the St. Lawrence river, are also afraid of the cold and hence of his farm yard has found a method of circumventing this weakness.

In a recent cold spell Brennan was surprised to see the chickens and turkeys running about and occasionally dismounting to pick up a grain of corn. Then again they would move and lie close, like a jockey during a race. He discovered that the chickens were using the sheep's wool to keep warm and dug their toes into their backs to keep them from freezing off. They ride the sheep from one stable to another searching for food.

Policeman—How many people were in the car that ran over you?
Victim—What's the population of the United States?

Minard's Liniment for sale everywhere.

The Pacific Ocean covers 8,800,000 square miles, the Atlantic 20,000,000 and the Indian, Arctic and Antarctic 42,000,000.

Cornus cause much suffering, but Holloway's Corns are a speedy, sure, and satisfactory relief.
An uneducated Scotchman made a fortune. One day he and an acquaintance were talking, when the latter said to old Duncan:
"Say Duncan, you don't know enough to go in when it rains. Why, your corns are so bad, they're killing you." Duncan said "I'm not." "You're not?" "No, I'm not." "I tell you, you don't know anything. Why, you've had a corn for years, and you've been dead years ago. I'll bet you a hundred you can't spell 'corn'!" "I'll take you" quickly replied Duncan.
After the money was put up, Duncan said "B-I-I-I-I." "That ain't the way you spelled it the first time." "I wasn't better then."

Mr. F. P. Denning, who is perhaps the greatest living observer of "shooting stars," has recently summed up his observations for the past forty-five years with these results: During the first six months of the year an average of six meteors an hour can be seen; at the end of July the average number an hour is 40. The average number an hour for the entire year is 24.

ADVENT OF THE TRAIN AGENT

A New System of Collecting Fares

Adopted by the G. T. P.
A new system of collecting tickets and fares is now being successfully operated on the Grand Trunk Pacific Railway, which is not only business-like, but convenient for the passengers. The train conductor has now something to do with the handling of tickets or cash. His business, as is the case of a ship's captain, is purely to manage his train and all the officials who operate it. His authority is absolute. The tickets and fares are all collected by an official corresponding to the purser of the Merchant Marine, who is known as "train agent," and whose only duty is to look after the fares. The editor of the "Vancouver Hill Review" has this to say of the G. T. P. train agent: "He is an official that was new to me and I was particularly interested in him because of his extreme politeness and consideration for his passengers. In the West today the 'train agent' steps up to you and makes a pleasant remark upon the weather, or bids you 'the time of day,' and concludes with, 'Your ticket, please.' He waits patiently until he gets it and then, invariably says 'Thank you.' It is as if you were going for a ride on a horse, and you about the hour you will get to your journey's end, and if your trip is short he will tell you the time to four stations, as the case may be, and hand you a hat check."
"I watched the first 'train agent' I travelled with and he treated every passenger in the car in the same courteous manner, and I never saw him, and I tell you it pleased the travellers a mighty sight better than the old time poke-in-the-rib."

"Later I travelled on a local train between Watrous and Winnipeg and I determined to watch if all 'train agents' on the G. T. P. were as polite as the first one I saw. I was not doomed to disappointment. He was even more courteous and considerate to every passenger."

Industrial Accidents in January, 1913
There were 86 fatal and 214 non-fatal industrial accidents recorded by the Department of Labor during January, 1913. This is a more favorable showing than in the corresponding month of 1912, but less favorable than in December, 1911. Twenty-three men were killed in the railway service and fourteen in mining. Of the non-fatal accidents, the largest number was also in the railway service, namely, fifty-six, and the second largest in the metal trades, namely, 41. The most serious disasters of the month were the derailment of a wrecking train by a snowslide near Revelstoke, B.C., in which a brakeman and three sectionmen were killed, and a premature explosion of dynamite on January 19, 1913, in which a Canadian Northern construction work north of Niagara, Ont., by which two laborers were killed and five injured. A fireman and a brakeman were killed in a head-on collision near Brockville, Ont.

Cost of Living Unprecedentedly High
The Department of Labor price record for January shows the general price level the highest known probably within the present generation. Slightly since the early eighties. Since the middle of June last a pronounced and continuous upward movement has been in progress, and though there was a short breathing spell in December, January now shows the highest level of all. The Department index number which is based on the observation of fluctuations in 281 commodities selected for their representative character rose to 131.0 in January, that is, general prices were 31 per cent higher in that month than was the average for the decade 1890-1899, which is taken by the Department as the standard of comparison in constructing its number. Compared with 1907, the lowest year in the past quarter century, prices are now at least 45 per cent higher.

The recent rise is particularly serious from the cost of living standpoint in as much as it is due to industrial expansion having enhanced the price of materials, while the reported shortage in the world crop has produced a like effect on the price of foodstuffs.

RINGING THROUGH BONAVENTURE CO.

SPLENDID WORK DODD'S KIDNEY PILLS ARE DOING

Mrs. Norman L. Dow Tells What They Have Done for Her—People Talking of Them on Every Side.

Port Daniel West, Bonaventure Co., Que., (Special)—Bonaventure County is ringing with the great work done by Dodd's Kidney Pills and on every side people are talking of the neighbors of aches relieved and the cure by the great Canadian kidney medicine. To the mass of evidence already published is now added that of Mrs. Norman L. Dow of this place. "I can recommend Dodd's Kidney Pills as an excellent remedy for rheumatism and palpitation of the heart," said Mrs. Dow. "After using them I was greatly benefited."

"I was greatly benefited," said Mrs. Dow. "After using them I was greatly benefited." "I was greatly benefited," said Mrs. Dow. "After using them I was greatly benefited."

A Deep One
"Gosh all hamlets!" exclaimed the first farmer, "ain't yer stroke water yet? How deep have yer struck?" "About a hundred feet," replied the other placidly.
"An' ain't ya discouraged?" "No, I ain't. I can't say I ain't getting along well."

MOONEY'S BISCUITS ARE THINNER

That makes them neater, crisper, daintier, more appetizing! The one biscuit good enough to take the place of your own baking. Fresh as the biscuits from your own oven. Think what that means! Freedom from a broiling kitchen—leisure on the porch or in the parlor. Time to do the little knick-knacks that have been neglected.

MOONEY'S PERFECTION SODA BISCUITS

Are the creamiest, crispest crackers made. They are baked in the big sanitary factory in Winnipeg—right at your very door.

Use MOONEY'S and be sure of a biscuit—that is absolutely fresh; a biscuit that will satisfy the family,

In tempting packages or sealed tins as you prefer.

"LET MOONEY DO IT"

INQUEST IS CONCLUDED

Federico Calabrese Came to His
Death By Suffocation or
Burning

The inquest into the cause of the death of Federico Calabrese was resumed at the Blairmore police barracks on Tuesday before Coroner Pinkney. The following jury was present: H. E. Lyon, chairman; H. G. Bigelow, L. Dutil, C. E. Hisecks, D. A. Sinclair, W. J. Bartlett and J. G. Smith.

The following witnesses were heard, John Smallwood, Dr. A. H. Baker, J. B. Sweetland, Mason Brown, David Fraser, A. A. Sparks, Mrs. Cardno, C. Chestnut, F. W. Cardno, J. R. Irwin, Alex. Kalil and Billis Ryan. The hearing of evidence in connection with the fire occupied the time of the court from 10 a. m. to midnight, when the jury sat to arrive at a verdict. Nothing of an exciting nature was produced in evidence and no clue could be found to attach to the origin of the outbreak. After about an hour's consideration, the jury through their foreman, returned the following verdict:

"That we, the jury, charged to inquire into the death of Federico Calabrese came to his death, find as follows: That the said Federico Calabrese came to his death by being burned or suffocated in the Cosmopolitan hotel on the night of Monday, March 25th, 1912.

That the fire which mysteriously originated in the store known as Kalil Brothers, caused the burning of the said Cosmopolitan hotel and other buildings."

Police Unable to Locate Fugitive

Evidence was obtained by the Mounted Police Tuesday, that indicates that Mike Phillips, who it is alleged, murdered his wife at Paken, 60 miles northwest of Edmonton, last week, is within a few miles of the house where the killing took place, and that he is being furnished food by some of his fellow countrymen.

If the men who are alleged to be furnishing the fugitive with food can be apprehended the authorities will not deal gently with them, as sufficient difficulty is being experienced by the police in getting the man cornered without the intervention of outside parties, who attempt to hinder them.

An effort is being made by Major Cuthbert, officer commanding the local detachment, to have a reward offered for Phillips, that is sufficiently large to increase the size of the posse in pursuit of the fugitive.

Toronto Glee Club

On Friday night of this week the people of Blairmore will have the privilege of hearing a big musical attraction at popular prices without going to the large cities. The Toronto Glee Club headed by the famous basso cantante will give one concert in Blairmore Opera House. The name of Ruthven MacDonald alone should be sufficient to pack the place to the doors.

The programme is a popular one arranged to suit all tastes, an abundance of good, wholesome humor being introduced to add variety.

Popular prices will prevail, no seat being higher than 75 cents.

Single Tax in Alberta.

With forty incorporated towns in Alberta adopting the system of single tax, it is only natural that this question is being widely discussed at present, and the good features of the system, talked of in the towns in question and brought into the families of the particular ratepayers.

Single tax is applied to a tax which is imposed on land alone, and not on improvements of any kind. Land value in towns or cities is the result of location entirely and the effort of others, who make the particular locality more valuable. If a railroad passes through a community, prices go up and from the labor and money of others, individual holdings take on an increased value. No effort has been made on the part of the owner, no credit is due him, yet he reaps the benefit of another's effort. Single tax is intended to remedy and properly adjust this condition of affairs.

The landlord in every instance has to shoulder the burden of any additional tax which may be imposed on his property,—in no case must the tenant, who is already paying the limit of an extortionate rent, be compelled to share in the tax on increased value of land.

Speculation in Western real estate is quoted as the most injurious speculation known. The influence of keeping back any inclination for development and improvement of land is a source of treacherous. Society is thereby robbed of at least one of the most essential elements in production. Idle workmen are an unavoidable result; poverty stricken communities are overburdened and hard times in evidence. The profits made in land speculation do nothing more than lower the wages of productive labor, for it is a non-productive operation on the part of the speculators.

An instance can be chosen in almost any Western town, where the brains and energy of others tend to increase the price of their property, while the particular owners exert absolutely no effort. Property in this town is held by many outsiders, who depend entirely on the ability of citizens, to increase the price of their property. On this basis their tax will in future be estimated and they will be compelled to pay their share of the toll.

Lloydminster is situated to the north of us, one half of the town being in Alberta and the other portion in Saskatchewan. Alberta adopts the single tax, former valuation is imposed in Saskatchewan. Note the results. New industries are started in the Alberta portion of the town. This section booms, while the other is lagging. Merchants have moved from the Saskatchewan section and prefer to pay taxes on land, rather than on store and stock.

In every section of Alberta, where this system has been adopted, we find an entire change from the old. Wages are better, the eight hour working prevails and conditions are markedly superior. But these are the conditions that should prevail. The productiveness of the country is in no way assisted by real estate, and land speculation but rather is retarded and hindered.—Wainwright Star.

Electric Restorer for Men
Phosphorus restores every nerve in the body and restores the system to its normal condition. It is a powerful restorative and all ailments of the nervous system are cured. Price 25c a box, or five for \$1.25. Mailed to any address. The Electric Restorer Co., St. Catharines, Ont.

MEETING OF BOARD OF TRADE

Matter of Connecting Blairmore and
The South Fork by Wagon
Road Revived

The regular monthly meeting of the Blairmore Board of Trade was held on Monday evening, the following members being present: D. A. Sinclair, president; T. B. George, secretary-treasurer; L. Dutil, J. A. McDonald, J. G. Smith, H. H. Tait, L. Roberts, W. A. Malcolm, C. J. Pegg, H. G. Bigelow and W. J. Bartlett.

Minutes of previous meeting were read and adopted.

Communication from George Henderson Co., of Hamilton, Ont., asking for information regarding resources and feasibility of conducting machine shops, foundry, etc., in this section, was read, and secretary was instructed to write and furnish the necessary information.

Another communication was received from the Western Canada Fire Underwriter's Association of Winnipeg in reply to a recent letter from the Board asking what would be necessary on part of town fire protection service to ensure a reduction of fire losses. It was recommended therein that the town adopt a combination chemical engine and hose wagon capable of handling one thousand feet of hose, a fire hall with a drying tower fifty-five feet in height, two resident firemen and twenty-five of a volunteer brigade, etc.

The proposition of Louis C. Gales was read, and upon vote Mr. Gales was elected a member of the Board.

McDonald-Roberts—That correspondence from fire insurance underwriters be handed over to the town council for their consideration. Carried.

One "wee" account was read and ordered referred to finance committee for their approval.

Dutil-Smith—That secretary write the department relative to the long agitated road from Blairmore to the South Fork, and to ascertain what steps were being taken in such matter.

No other business, the Board adjourned at 9.15.

Blairmore School Report

21-34

On Friday night, April 12th, Blairmore theatre goers will have the pleasure of the appearance of the Toronto Glee Club at the opera house. Mr. Ruthven McDonald, the musical conductor, is well known throughout the entire continent, and his ability as an entertainer and musician has brought forth volumes of praise. He is recognized as the greatest vocalist in Canada and one of the highest characters of the continent. With him are several classy artists, including Mrs. Ruthven McDonald, pianist and accompanist, who has held the front rank among piano artists of the world. Friday night's entertainment will be a rare treat, and there is no doubt but that this popular troupe from the queen city of Ontario will give you a good reception in Blairmore. Prices are 50 and 75 cents.
